## 1. General Information

### 1.1 Introduction

SCA Logistics B.V.(SLR) produced this document as required by EC Implementing Regulation 2017/2177.

SCA is handling request for railway infrastructure capacity. (Directive 2012/34 Annex II)

The SLR terminal is centrally located in the port of Rotterdam, the largest port in Europe. The terminal was opened in July, 1967 and built using the most advanced technological equipment to be able to handle all types of cargoes. We have excellent assets to and from the North Sea, and from Rotterdam we ship our forest products and general goods throughout the world. We also have facilities for road and rail and transport huge volumes by lorry and train.

This document is published at [www.sca.com](http://www.sca.com)

### 1.2 Service Facility operator

The facility is 100% operated by SCA.

### 1.3 Validity period and updating process

This document is updated when necessary.

## 2. Services

SCA acts as stevedore facility offering only loading/discharging services to and from railcar on behalf of our clients, for example cargo owners.

## 3. Service facility description
