SCA one of the world's 100 most sustainable companies

For the sixth consecutive year, SCA has been recognized as one of the world's 100 most sustainable companies by Canadian Corporate Knights. SCA has qualified as one of the 100 most sustainable companies each year since the global sustainability list was first presented in 2005.

The Corporate Knight's list, "The Global 100 Most Sustainable Corporations in the World," was presented today at the World Economic Forum in Davos. The list comprises companies from a total of 24 countries that were evaluated based on how effectively the companies deal with various environmental and social aspects.

In the global sustainability list for 2010, SCA is one of three Swedish companies among the 100 companies that qualified. Corporate Knights publishes the world's most circulated magazine focusing on corporate sustainability issues.
