SCA continues to be in the FTSE4Good Index

SCA continues to be a member company of the global sustainability index FTSE4Good for the 12th consecutive year, which confirms that SCA delivers on its ambitious sustainability agenda. This year, SCA received 99 points out of 100 possible in FTSE4Good's rating system for index inclusion.

"In SCA, sustainability is an integral part of our business strategy and worldwide operations. Our high score on the FTSE4Good Index is an inspiration for us and reinforces our conviction that long-term sustainability work creates value for all our stakeholders. And our recently launched, additional sustainability targets, which take into account people as well as nature targets, raise the bar going forward," says **Kersti Strandqvist**, Senior Vice President, Corporate Sustainability.

The FTSE4Good Index Series was launched in 2001 by FTSE Group, the award-winning global index provider, with the aim of objectively measuring the performance of companies that meet globally recognized corporate responsibility standards.
