The board of directors proposes that the annual general meeting resolves to approve the board of directors’ report regarding compensation pursuant to Chapter 8, Section 53 a of the Swedish Companies Act.

Item 15 – Resolution on guidelines for remuneration to senior executives

The board of directors proposes – with amendment to the guidelines adopted at the annual general meeting 2020 – the following guidelines for remuneration to the senior management.

These guidelines shall apply to remuneration to Board members, the President, vice President as well as other members of the senior management. The guidelines are applicable to remuneration agreed, and amendments to remuneration already agreed, after adoption of the guidelines by the annual general meeting 2022. The guidelines do not apply to remuneration resolved by the general meeting.

Principles for remuneration

A prerequisite for the successful implementation of the company’s business strategy and safeguarding of its long-term interests, including its sustainability, is that the company is able to recruit, motivate and retain qualified personnel through competitive remuneration in line with market levels. To this end, the total remuneration is to correspond to market practice and be competitive on the senior manager’s field of profession, as well as be linked to the manager’s responsibility, authority and performance. Remuneration may consist of fixed salary, variable remuneration, other benefits and pension, jointly referred to as total remuneration. The company’s business strategy can be found in the company’s annual and sustainability report.

Variable remuneration

Variable remuneration shall aim at promoting the company's business strategy and long-term interests, including its sustainability. Variable remuneration shall be based on the outcome in relation to short-term and long-term goals, respectively, comprising financial goals, goals that contribute to such (including sustainability goals), or to the value development of the company's Class B share. It shall be linked to the fixed annual salary and be maximized. Variable remuneration is to be paid as cash remuneration and shall not qualify for pension benefits.

Short-term performance goals may include, for example, organic growth, profit, cash flow, capital efficiency, return, health-safety-environment, individual targets, or a combination thereof. Remuneration that may be paid under such short-term performance goals shall not exceed 100 percent of the fixed annual salary.

Long-term performance goals shall be linked to the value development of the company's Class B share and the company's increased climate benefits. Remuneration that may be paid under such long-term performance goals, including Performance period, maximum amount and other main conditions, shall therefore be approved by the general meeting.

Total variable remuneration related to short-term performance goals and long-term performance goals in accordance with the description above shall not exceed 100 percent of the fixed annual salary.

Additionally, variable remuneration in the form of project bonuses may be awarded in individual cases. The performance goals shall, in such case, be linked to the project (e.g. Capex or production volume) in order to promote the completion of the project. The satisfaction of goals may be measured, and bonus may be paid, after one or several years. Such project bonus shall not exceed 40 percent of the total fixed annual salary during the relevant period.

The company shall be able to refrain from paying variable remuneration when required and possible under applicable law, if there is special cause and withholding the payment is necessary to serve the company's long-term interests, including its sustainability. The

company shall also have the possibility to, under applicable law, reclaim variable remuneration paid on incorrect grounds.

Pension and other benefits

Pension benefits shall solely contain defined premium pension benefits, unless the manager is subject to defined benefit pension under applicable collective agreement provisions. The planned retirement age is 65 years. The defined premium pension shall total a maximum of 50 percent of the fixed annual salary.

Other benefits may include, for example, health insurance, company car and wellness allowance.

In the event of termination of employment, a notice period of two years shall typically apply if the termination is initiated by the company, or one year, if termination is initiated by the manager. Severance pay shall not occur.

Decision-making process and reporting

Issues regarding remuneration to senior managers shall be dealt with by the Board of Directors' remuneration committee and, in case of the President, be decided by the Board of Directors. The remuneration committee's tasks shall also include preparing the Board of Directors' decision to propose guidelines for remuneration to senior managers, as well as monitoring and evaluating the application of these. The senior managers shall not participate in the Board of Directors' nor the remuneration committee's processing of and resolutions regarding remuneration-related matters in so far as they are affected by such matters.

In the preparation of the remuneration guidelines, salary and employment conditions for the company's other employees in Sweden shall be taken into account, including information on the employees' total income, the components of the remuneration and increase and growth rate over time, as well as the company's equality policy.

The Board of Directors shall prepare a remuneration report.

Application of and derogation from the guidelines

The Board of Directors may temporarily resolve to derogate from the guidelines, in whole or in part, if in a specific case there is special cause for the derogation and a derogation is necessary to serve the company's long-term interests, including its sustainability.

The guidelines do not take precedence over mandatory provisions under applicable employment regulation or collective agreements. They are also not applicable to agreements already signed.

Information about SCA's current guidelines for remuneration to senior executives, the application of the current guidelines and the company's costs for remuneration to senior executives is covered in note C3 of the company's annual report.

Description of significant changes compared to previous guidelines

This guidelines have been updated following the Board of Director's proposal concerning the implementations of a new long-term cash-based incentive program.

Item 16 – Resolution on a long-term cash-based incentive program

The Board of Directors of Svenska Cellulosa Aktiebolaget SCA ("SCA" or the "Company") proposes that the annual general meeting 2022 resolves to approve a long term cash-based incentive program which is directed to the members of the group management and key employees within the SCA group (the "Program").

Background

In order to promote a common interest for the participants and the shareholders of long-term good return and to promote the Company's ability to recruit and retain key employees with business-critical competence, the Board of Directors considers that the company shall have long-term cash-based incentive programs. The Programs should be approved annually and have performance conditions related to the value development of SCA's Class B share and the Company's increased climate benefits, which is measured during a three-year period. The Board of Directors also considers that there should be a requirement for own investment in SCA shares of the entire net amount paid and that such shares should be held for a period of at least three years.

The core of SCA's business is the growing forest, Europe's largest private forest holding. Around this unique resource, we have built a well-developed value chain based on renewable raw material from our own and others' forests. We offer packaging paper, pulp, wood products, renewable energy, services for forest owners and efficient transport solutions. In 2021 the forest products company SCA had approximately 4,000 employees and sales amounted to approximately SEK 18.8 bn. SCA was founded in 1929 and has its headquarters in Sundsvall, Sweden. The Board of Directors of SCA has previously resolved on similar cash-based programs with three-year performance conditions, which are described in the Company's annual reports and in the remuneration report approved by the annual general meeting 2021. It is now proposed that the annual general meeting decide on this type of incentive program.

Against this background, the Board of Directors proposes that the annual general meeting 2022 approve that the Company implements a cash-based incentive program, as further described below.

Principal terms and conditions of the Program

The Board of Directors proposes that the Program shall be based on the following principal terms and conditions:

- a) The Program is proposed to be open to the group management and in addition not more than 20 key employees within the SCA group (the **"Participants"**).
- b) The Participants shall have the opportunity, depending on satisfaction of certain performance conditions in accordance with paragraph c) below, to obtain a cash remuneration (the **"Cash Remuneration"**) after the end of the three-year Performance period for the performance conditions under the Program. The Cash Remuneration for each Participant may not exceed a certain percentage of the Participant's fixed annual salary (gross) for 2024, as follows: (i) for the President, a maximum of 50 percent, (ii) for the other members of the group management, a maximum of 40 percent and (iii) for other Participants, a maximum of 15 percent.
- c) Payment of the Cash Remuneration shall depend on the degree of satisfaction of the performance conditions for the Program. The performance conditions shall be based on a financial target consisting of the total return (**"TSR"**) on the Company's Class B share for the financial

years 2022, 2023 and 2024¹ (the “**Performance Period**”), which shall be measured to 60 percent in relation to a benchmark group of other companies² and to 40 percent in relation to the OMXS30 index (the “**TSR-condition**”), as well as a sustainability target related to increased climate benefit (million tonnes of CO₂ equivalents, as defined in the annual report, “**Climate Benefit**”) during the Performance period (the “**Sustainability Condition**”). The TSR-condition will be weighted 90 percent and the Sustainability Condition 10 percent when payment of the Cash Remuneration is decided. In connection with the expiration of the Performance period, the Board of Directors will publish information disclosing to what extent the TSR- and the Sustainability Condition, respectively, have been satisfied.

Payment of Cash Remuneration related to the *TSR-condition* shall be calculated in accordance with the following:

- A condition for payment is that the TSR of SCA’s Class B share is not lower than the weighted TSR outcome for the Benchmark Group and the OMXS30 index during the Performance period (the “**Minimum Level**”). If the Minimum Level is not reached, no payment of Cash Remuneration related to the TSR-condition will be made.
- For maximum payment, it is required that the TSR of SCA’s Class B share exceeds the weighted TSR outcome for the Benchmark Group and the OMXS30 index by at least 5 percentage points during the Performance period (the “**Maximum Level**”).

¹ The calculation of TSR is made as follows: weighted average price of the shares during the fourth quarter 2021 is compared with weighted average price of the shares during the fourth quarter 2024, including reinvested dividend.

² When implementing the Program, the benchmark group comprises of Holmen, Stora Enso, UPM Kymmene and BillerudKorsnäs weighted equally, and may be adjusted by a Board resolution if deemed appropriate by the Board of Directors (the “**Benchmark Group**”).

- Should the TSR of SCA's Class B share be between the Minimum Level and the Maximum Level during the Performance period, a linear payment will be made.

Payment of Cash Remuneration related to the *Sustainability Condition* shall be calculated in accordance with the following:

- A condition for payment is that the average annual Climate Benefit increases during the Performance period, compared to the average annual Climate Benefit during the financial years 2019, 2020 and 2021 (the "**Minimum Level**"). If the Minimum Level is not reached, no payment of Cash Remuneration related to the Sustainability Condition will be made.
 - For maximum payment, it is required that the average annual Climate Benefit increases with 1,5 million tonnes CO₂ equivalents during the Performance period, compared to the average annual Climate Benefit during the financial years 2019, 2020 and 2021 ("**Maximum Level**").
 - Should the Climate Benefit reach a level between the Minimum Level and the Maximum Level, a linear payment will be made.
- d) Cash Remuneration will normally be paid after the expiration of the Performance period.
- e) A prerequisite for a Participant to be able to receive full Cash Remuneration, is that he/she, with certain specific exceptions, has been permanently employed within the SCA group for the duration of the whole Performance period.
- f) Participants shall undertake, for as long as the Participant is employed within the SCA group, to acquire SCA shares for the total paid net amount

of the Cash Remuneration no later than 30 June 2025 (or as soon as possible thereafter if the Participant has been prevented from acquiring SCA shares at such time due to insider rules), and to retain such shares for a period of at least three years after the acquisition (with certain exemptions approved by the Board of Directors). If a Participant does not acquire or retain SCA shares in accordance with the above, the Participant's right to payment under other incentive programs to which the Participant has been invited to participate, shall lapse.

- g) If extraordinary changes in the SCA group or in the market occur which, in the opinion of the Board of Directors, would result in a situation where the conditions for Cash Remuneration under the Program become unreasonable, the Board of Directors shall be entitled to make adjustments to the Program, including, among other things, be entitled to resolve on a reduced right to Cash Remuneration, or that no Cash Remuneration shall be paid at all.
- h) The Board of Directors shall be authorised to establish the detailed terms and conditions for the Program. The Board of Directors may, in that regard, make necessary adjustments of these general terms and conditions to satisfy certain regulations or market conditions outside Sweden.
- i) Participation in the Program presupposes that such participation is legally possible in the various jurisdictions concerned.

Costs for the Program, dilution, etc.

The cost for the Program, including social security charges, is estimated to a maximum of SEK 30 million if satisfaction of the TSR- and the Sustainability Condition, respectively, is 100 percent. This cost can be related to SCA's total cost for salaries and remuneration,

including social security charges, of SEK 2,603 million in 2021. The cost effect on key ratios and profit per share is marginal.

The Program is cash-based and does not entail any dilution for the Company's shareholders. No hedging arrangements are intended to be made with regard to the Program's financial exposure.

Preparations of the proposal

The proposed Program has been prepared by SCA's Remuneration Committee. The Remuneration Committee has presented documentation to the Board of Directors, where after the Board of Directors has resolved that the Program shall be referred to the Annual General Meeting 2022 for approval.

Majority requirements

The Annual General Meeting's resolution on approval of the Program requires simple majority of the votes cast.
