

Press release

Sundsvall, March 8, 2022

SCA publishes 2021 annual and sustainability report

SCA today publishes its annual and sustainability report for 2021. In the report, SCA describes the company's work to contribute to a fossil-free society. SCA's climate benefit in 2021 amounted to 10.5 million tonnes of carbon dioxide based on the forest's net carbon sequestration, substitution effect and reduced fossil emissions.

The annual report is available on the SCA website at www.sca.com. The printed annual report will begin to be distributed to shareholders and other stakeholders from March 25 2022.

The annual report is published in accordance with the reporting requirements of the European Single Electronic Format (ESEF). In accordance with the requirements of the ESEF, the year-end report has been provided with XBRL tags. The ESEF files, in Swedish, can be downloaded at sca.com

The information provided herein is such that SCA is obliged to make public pursuant to the Securities Markets Act. The information was submitted for publication on March 8, 2022, at 08.00 am CET.

The core of SCA's business is the growing forest, Europe's largest private forest holding. Around this unique resource, we have built a well-developed value chain based on renewable raw material from our own and others' forests. We offer packaging paper, pulp, wood products, renewable energy, services for forest owners and efficient transport solutions. 2021 the forest products company SCA had approximately 4,000 employees and sales amounted to approximately SEK 18.8 bn. SCA was founded in 1929 and has its headquarters in Sundsvall, Sweden. More information at <http://www.sca.com>
